

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

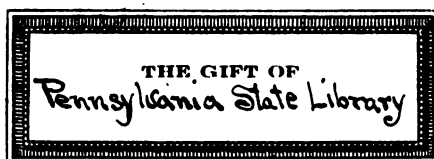

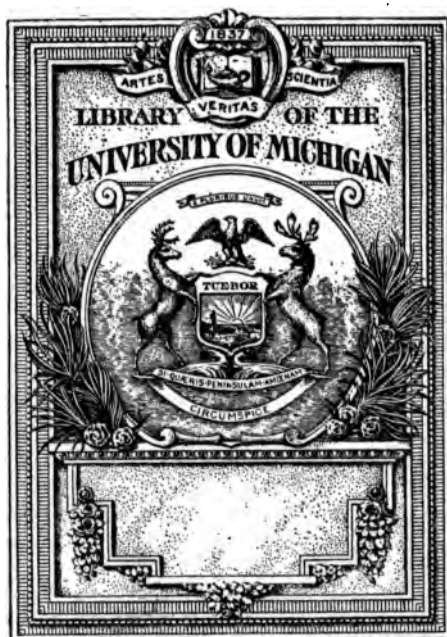

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

The annual appropriations as made by the Legislature of 1903 were as follows:

For the purchase of miscellaneous books,	\$6,000 00
For the purchase of law books,	2,000 00
For the purchase of newspapers,	600 00
For the purchase of English Parliamentary reports, ...	375 00
For salaries:	
State Librarian,	2,500 00
First Assistant Librarian,	1,800 00
Second Assistant Librarian,	1,500 00
Clerk of Department of Public Records,	1,500 00
Cataloguer,	1,500 00
Stenographer,	1,000 00
Clerk,	1,000 00
Messenger,	1,000 00
Night watchman,	900 00
For the preparation of the card catalogue,	1,500 00
For incidental expenses,	3,000 00
For expenses in the preservation of the public archives,	2,500 00
	<hr/>

The collections of the Library have been increased as follows:

Total number of books and pamphlets reported by Dr. Geo. Edward Reed, the former State Librarian,	112,884
Added by purchase,	1,665
Added by exchange,	985
Added by donation,	150
	<hr/>
Total number added to the Library,	2,800
	<hr/>
	115,684
	<hr/>

From the foregoing it appears that the appropriation for miscellaneous books was increased from \$3,500.00 per annum to \$6,000.00—a very wise provision on the part of the Committee on Appropriations, as the larger sum barely suffices for the purchase of the current literature and such items of the literature of the past as may be found in auction sales and in second-hand book stores and catalogues.

The item for incidental expenses was also increased from \$2,500 to \$3,000.

By direction of the Governor the payment of the salary of a clerk was removed from the Incidental Expense Account and added to the salary roll. The only other items added were the salary of the Custodian of the Public Records, for which the committee on appropriations allowed \$1,500, and the item for incidental expenses of the new department for which \$2,500 was appropriated.

In looking over these appropriations the only item that seems insignificantly small is that for law books. The collection of law books has been falling behind for a number of years and the Librarian is informed, on the best authority, that it will require at least \$2,500 in addition to the appropriation to put it on anything like a satisfactory basis, and he suggests that the next Legislature be asked for this amount in addition to the usual appropriation. No department of the Library is more consulted by intelligent patrons, and the State cannot afford to maintain a law collection that is not practically complete.

Cataloguing.

Some years ago the work of cataloging the collection was taken up under a special appropriation by the Legislature, and an author and title card was prepared for each of the books in the Library. This catalogue has been most useful, but it is nevertheless inadequate to the needs of the institution. The present librarian could not approve of the classification which had been adopted for the arrangement of the books upon the shelves and at the June meeting of the Trustees of the Library he was authorized to classify the new books as they came in under the Dewey decimal system, which is adopted by about 90 per cent. of the new libraries.

There had been no stock list of the collection and this absolutely indispensable list of accessions was begun at the same time. Without such a record it is very doubtful whether any insurance could be obtained in case of the destruction of the collection by fire. It is the purpose of the Librarian to list the volumes which were previously in the Library as soon as time may permit, and to gradually recatalogue and reclassify the whole collection.

The cataloguing force is inadequate and poorly paid, and can hardly be expected at the present time to do much more than keep up with the current accessions. The Librarian recommends that four cataloguers be placed on the pay roll at salaries of six hundred dollars each.

Department of Public Records.

Early in the session of 1903, the Librarian received a communication from Prof. Herman V. Ames, of the University of Pennsylvania, suggesting that a bill be introduced into the Legislature for the creation of a Department of Public Records. Prof. Ames had, with Dr. Lewis S. Shimmell, published a report in 1901 on the Public Archives of Pennsylvania, in which he had pointed out the necessity for some active measures in order that the historical papers of the Commonwealth might be preserved. Large numbers of them have been stolen from time to time, and there is hardly a collection of manuscripts in the country which did not contain papers belonging to the State. In many cases the papers had been ruined by careless handling, by dampness and by insects, and the seals had been removed from many valuable papers as mere mementos of a visit to Harrisburg. After some correspondence with Prof. Ames the State Librarian prepared bill No. 135, which is entitled "An Act for the creation and government of a division of the State Library for the preservation of Public Records." This was founded upon the suggestions of Prof. Ames, and went through the Legislature without objection, and was approved by the Governor on the 14th April, 1903. At the same time two items were added to the General Appropriation Bill which provides a salary for an assistant in the Division of Public Records of \$1,500.00 per annum, and for the necessary expenses incidental to the preservation of the records, \$2,500.00 per annum.

Soon after bill No. 135 had been introduced in the House a joint resolution was proposed by Mr. Cooper, at the suggestion of Mr. Joseph Willcox, of Philadelphia, which is described as "Joint resolution No. 3, to preserve the historical archives of the Commonwealth." This resolution provides for the appointment of a commission of three members to take charge of the collection, mending, mounting and preserving of the papers of the Commonwealth, and to arrange for their deposit in the State Library. It also contains an appropriation of \$10,000 for the accomplishment of this work. The resolution passed the House and finally, after some comment, passed the Senate also. The Governor appointed as the commissioners under the act Dr. John W. Jordan, of Philadelphia; Mr. Edwin H. Anderson, of Pittsburg, and Mr. Thomas L. Montgomery. As the first bill No. 135 provides for an advisory commission whose

duty it is to advise with the Governor, the Trustees and the State Librarian, the Governor appointed on this commission Dr. John W. Jordan, Philadelphia; Mr. Edwin H. Anderson, of Pittsburg; Mr. Boyd Crumrine, of Washington; Mr. Frank R. Diffenderfer, of Lancaster, and Mr. Julius F. Sachse, of Philadelphia. These two commissions are acting as a unit in the work which has been taken up under the direction of the State Librarian. The south end of the basement has been appropriately fitted up with metal cases and tables and eight young women are now at work under the direction of Luther R. Kelker, who has been appointed by the State Librarian as Custodian of the Public Records.

A large instalment of papers has been received from the Auditor General's Department and the work of classifying these is proceeding briskly. Preparation has also been made for the mending and mounting of the papers and one of the assistants was sent to Philadelphia to be instructed by Miss J. C. Wiley, who has done such satisfactory work for the Historical Society of Pennsylvania.

The State Librarian is ex-officio Secretary of the Free Library Commission of Pennsylvania, which was organized by law in 1899. The enactment did not carry with it an appropriation and for two years the work of instituting the traveling library system was carried on by subscriptions. In 1901 \$3,000 was appropriated for the work and in 1903 \$12,000 was asked for. It is a matter of congratulation that this was one of the few appropriations that was not cut by the Committee on Appropriations. This mode of providing literature for places which have no library facilities is bound to appeal more and more in the less populous districts. With the small amount of money on hand it has not been thought advisable to advertise the movement too much, as the small force could only turn out a limited number of libraries in a year, nevertheless 102 of these collections of fifty books each have been circulated throughout Pennsylvania in 140 different places. The State Librarian had the pleasure of addressing the annual meeting of the State Grange which was held at Wilkes-Barre on December 10, and found that the representatives were most enthusiastic in their approval of what had been done and in the desire to further the movement in every way in their power. In the coal regions the local secretaries of the Y. M. C. A. have assisted the Commission very much by their advice and co-operation and the interest of the members of the Federation of Women's Clubs in the traveling libraries has been invaluable. In a number of instances permanent collections of books have been begun and in some cases libraries which had fallen into disuse by reason of their funds being inadequate for the purchase of new literature have been revived. The Commission has had a number of library matters brought

before it outside of the traveling library work, and the State Librarian has made addresses at Jenkintown, Bloomsburg, Philadelphia, Easton and Carlisle in the interests of the library movement. He has also attended the meetings of the American Library Association, the National Association of State Librarians, the New York State Library Association, and the Keystone Library Association. The latter organization convened at Gettysburg on October 9 and 10 and had a most successful meeting. There were present eighty-six persons, who were either librarians or in some way connected with library work.

Historical Research Work.

For many years past communications have been sent to the State Librarian from the various departments and from individuals all over the country asking for information concerning military records and genealogical and historical data. It had been the custom to refer these requests to people who were willing to perform the work for a moderate fee. There seemed to be, however, no authority for the preparation of certificates of military records by the State Librarian as had been the custom. After some correspondence with the Secretary of the Commonwealth the State Librarian was authorized to issue these certificates under the Library seal to such persons as desired them, and this work now forms an important part of the Librarian's correspondence. By reason of the fact that the Second Series of Pennsylvania Archives is not indexed this research work is no light undertaking, involving, as it does, the dealing with some 500,000 records and very few of them arranged in alphabetical order. Two hundred and seven letters have been received by the State Librarian since June 1, requesting that the Pennsylvania records be searched for records of soldiers in the Colonial War, Revolutionary War and the War of 1812-14 alone. These communications contain requests for from one to seven records each. Only one of the volumes of the Pennsylvania Archives containing the military rolls is fully indexed (Vol. 23, Third Series), but a few of the military records in the other volumes are alphabetically arranged. Under these circumstances it is apparent that a great deal of work must be done to bring together all references concerning a name in the Archives and to certify as to any man's service. In many cases a number of letters have to be written to the descendant of the soldier or the one wishing the certificate of service before the proper record can be given of men of the same name very often from the same section or county. In these cases county histories and assessments of the State have very often to be consulted. Interesting as this

work undoubtedly is, a great deal of labor would be saved by the proper indexing of the Archives which have been published. In addition to this military record work a great many communications come to the Library from all parts of the country asking for information involving historical and genealogical research.

As editor of the Archives of Pennsylvania the State Librarian is seriously considering a recommendation to reprint the muster rolls with the emendations which can now be made. This work will not be undertaken until the material in the care of the Custodian of the Public Records is properly classified.

REPORT OF THE DIVISION OF PUBLIC RECORDS.

Harrisburg, Pa., December 12, 1903.

Hon. Thomas L. Montgomery, State Librarian, Harrisburg, Pa.:

Dear Sir: I have the honor herewith to place before you the First Report of the Division of Public Records since its organization.

Very respectfully,

LUTHER R. KELKER,
Custodian of the Public Records.

Shortly after his appointment, viz, June 1st, 1903, the Clerk of the Public Records visited the manuscript departments of several large libraries that had made the care of such documents a special feature of their work. The result of said visits you have in his Report under date of July 6th, 1903, which for the sake of continuity herewith follows:

"Harrisburg, Pa., July 6, 1903.

Hon. Thomas L. Montgomery, State Librarian, Harrisburg, Pa.

Dear Sir: I have the honor herewith to report the result of my examination of the methods adopted for the classification, indexing and general care of the manuscripts in the several manuscript departments of the following libraries, viz:

New York State Library, Albany, N. Y.

Astor-Lenox Libraries, New York City.

Historical Society of Pennsylvania, Philadelphia, Pa.

Congressional Library, Washington, D. C.

State Library, Albany, N. Y.

A large portion of the manuscript in charge of Mr. VanLear, the Archivist, has been arranged chronologically and is hinged in folio volumes, made years ago for that purpose, 12½x16½ inches in size. These have been paged and indexed, the latter 'hinged in' at the end

of each volume. Since his appointment he has changed the method, and now arranges the documents by Departments, e. g., Executive, Secretary of State, etc., as the old plan was found to be 'too confining,' and they are now catalogued by the 'Dewey System.' The more important papers are treated by the 'Emory Process.' There is danger, however, of the edges of the silk unravelling.

Documents of minor importance are placed in large flat envelopes, cover of same properly endorsed and catalogued. The paper used for mounting is as per sample marked 'New York State Library,' $11\frac{3}{4} \times 15\frac{3}{4}$, with $\frac{3}{4}$ -inch fold, and four perforations, and is purchased from the Hudson Valley Paper Co., 520 Broadway, Albany, N. Y.

Prices could not be obtained, owing to the absence of the State Librarian.

Rice flour paste is preferred to that of any other kind.

Astor-Lenox Libraries, New York City.

The manuscripts here are in charge of Mr. Eames, catalogued by the 'Cutter System,' and are arranged somewhat like those at Albany, save in the case of unimportant documents, which are placed in 'Folders,' endorsed and catalogued. Others are put in black cloth boxes $10\frac{3}{4} \times 14\frac{3}{4} \times 2\frac{3}{4}$ inches deep, with corners 'stayed.' These, if cloth bottomed, cost 20 cents each; if bottoms are of paper or board $1\frac{1}{2}$ cents less, and can be bought from Schenck & Schlichti, 22-24 Great Jones street, New York City.

Three (3) cards are made for each paper, viz: Name of Writer—To Writer—Mention of Writer. On each is written the name—location—date to whom—brief synopsis, if autograph or fac-simile—number of pages and size.

Important documents are covered with "crepine"—stock No. 3405; price $11\frac{1}{2}$ cents per yard, and bought from Openheimer & Levy, 471 Broadway, New York City.

The building being fire-proof, wooden cases are used, as at Albany, N. Y.

Rice paste preferred.

Historical Society of Pennsylvania, Locust and Thirteenth Streets, Philadelphia, Pa.

The manuscript department here is in charge of Miss Wylie. Paper used for mounting is as per sample, marked 'Historical Society of Pennsylvania.' A darker shade was formerly in use, but is now discontinued as not producing the proper effect.

The file covers and brass rods in and by which the mounted manuscripts are placed and fastened are admirable, as papers

can easily be added to or taken from as necessity may require, and they are obtained from Haley & Baker, 321 Chestnut street, Philadelphia, Penna.

Miss Wylie prefers cotton to linen paper, as the former does not cockle or rather buckle.

Rice paste is used, as per following receipt: 3 dessert spoonfuls rice flour, $\frac{1}{2}$ cup water, boil ten or fifteen minutes, oil of cloves to sweeten and should be made daily.

The press is a clumsy affair, and should be of iron with a platen 20x30 inches at least.

The lithographer's stone is 12x24 inches and is too small. It is mainly used for bevelling the edges of paper.

Keen edged knives are used in the process, as the paper must lie flat.

Druggist spatulas are used in smoothing out the creases in the dampened paper.

Crepeline is the material used in covering the more important documents. The address of the manufacturers as previously mentioned.

Congressional Library, Washington, D. C.

Some of the methods here are those adopted by the Historical Society of Pennsylvania, e. g., file covers and brass rods.

The paper for mounting is as per sample marked "Congressional Library." Standard size 11x16 inches, and tracing paper is used for 'hinging.' The lithographer's stone is 14x20, and the press 16x26, both are too small.

Tables are 3x8 feet with 2 $\frac{1}{2}$ -inch cherry tops. Crepeline covers the important documents and cards are made for each paper under the name of the writer.

Papers are received and arranged geographically on the shelves and are in steel cases made by The Miller Safe & Iron Co., Baltimore, Md.

Dr. Lincoln suggests arranging our papers by periods, viz: Settlement, Colonial, French and Indian War, Revolution, Constitution, 1790-1800, 1800-1820, etc.

The manuscript books are indexed and catalogued on cards referring to said index. Papers taken from the several departments are kept in original folds (till they are mounted) placed on shelves, and cards giving date, source and general character of same are made.

Rice flour paste is used, as per following receipt: 1 pint of flour, 3 pints of water, boil; 3 or 4 grs. salicylic acid or pulverized alum to sweeten.

Preparation of Manuscripts.

The paper is first dampened so that creases and turned edges may be smoothed. Care must be taken to smooth no crease which was unnoticed by the writer lest legibility be sacrificed. The manuscript is then dried between boards and submitted to heavy pressure. This prevents the reappearance of the original roughness. The period of pressure necessary to secure a permanently smooth surface is about twenty-hour hours. Where the quality of ink will not allow the manuscript to be dampened, this period must be much extended.

The manuscript is now ready to be repaired. For this purpose paper of similar color and texture to that of the original manuscript must be obtained. In many cases, owing to the age of the manuscript, this is no easy task. Hand-made paper is necessary and no bit of such paper is wasted. A patch conforming in size to the hole in the original manuscript is cut, the edges of both hole and patch carefully bevelled and scraped, and the patch held in place by the use of a thick flour paste. The manuscript is then heavily pressed. When dry the line of union between patch and paper is again scraped and the first stage in the work of repair is completed.

But a manuscript thus repaired is not ready for use. Although no attempt is made to supply words which have been torn from the original manuscript, it is protected against further loss. For this purpose a covering of tracing paper or of fine silk veiling (crepe-line) is used. Tracing paper gives firmness but impairs legibility, and the veiling is generally preferred. This covering is pasted on each side of the manuscript, that the tendencies for the paper to curl in either direction may be neutralized. When dry the manuscript is again pressed and mounted for filing.

Respectfully submitted,

(Signed.)

LUTHER R. KELKER."

It should be stated, however, that that portion of said report which relates to the preparation of manuscripts was obtained through the courtesy of Dr. C. H. Lincoln, of the Manuscript Department of the Congressional Library, Washington, D. C., and with his consent embodied in the report.

Next in order was the selection of a place to work in, and with the approval of the Board of Trustees, the basement room in the southern end of the Library Building was obtained. This room measures about 35 by 50 feet, with a ceiling eight feet high, is one-third above ground, has eleven large windows, giving plenty of natural light and assuring means for proper ventilation.

It was thoroughly cleansed, a granolithic pavement laid, the walls and ceiling painted a flat white. The cases were then designed, floor plan made, and the same submitted to the Board for its approval. This was obtained, and the Board directed that the cases should be ordered. Owing to a strike at the factory the manufacturers were unable to make a shipment until the close of September, and Saturday, October the 10th, arrived before the last case was put in place.

The cases are made of steel and number twenty-four. Sixteen of them are in two parts. The lower part, or base, measures 7 feet in length, 30 inches high and 36 inches deep, fitted with eight drawers 28x38 inches and 3½ inches deep. The tops are 4½ by 7 feet, 18 inches deep in the clear and fitted with moveable shelves. The balance measure 7 feet by 7, are 18 inches deep, with adjustable shelves. All have "curtained fronts," which move easily and are fitted with locks.

The week following was devoted to gathering the loose papers in alcove No. 31, and the unpacking and placing in cases the contents of forty boxes of documents found in the basement and attic of the Library Building. In addition to these documents twelve hundred files of papers and twenty-five books, these latter containing thousands of cancelled "Depreciation Pay Certificates," muster rolls of the militia who served during the War of the Revolution (many of these unpublished), and registry of the imports and exports at the port of Philadelphia—1785, 1786 and 1787—were brought from the Department of the Auditor General.

On Monday, October 19th, the young ladies who were engaged to assist in the Department began their work. At first the classification was a simple one, and was arranged under the head of

Letters,
Petitions,
Military Papers,
Miscellaneous Documents.

This classification was adopted in order that they might become familiar with the documents and learn something of their character, as well as to discover the years covered. After several days' work the classification was extended and made as follows:

Provincial Government,
Committee of Safety,
Supreme Executive Council,

And the several administrations of the Commonwealth from Gov. Mifflin to Gov. Ritner, both inclusive.

It was exceedingly difficult to know where to stop, as the papers bore dates from 1682 to 1866. But after careful consideration it was determined to take in all the Governors acting under the Constitution of 1790.

A large number of papers bearing upon the several counties of the State were found, and here the same difficulty arose, but was quickly settled by following the rule as above stated. The classification of the counties is:

Adams, Allegheny, Armstrong,
Beaver, Bedford, Berks, Bradford, Bucks, Butler,
Cambria, Centre, Chester, Clearfield, Columbia, Crawford, Cumberland,
Dauphin, Delaware,
Erie,
Fayette, Franklin,
Greene,
Huntingdon,
Indiana,
Jefferson, Juniata,
Lancaster, Lebanon, Lehigh, Luzerne, Lycoming,
McKean, Mercer, Mifflin, Monroe, Montgomery,
Northampton, Northumberland,
Perry, Philadelphia, Pike, Potter,
Schuylkill, Somerset, Susquehanna,
Tioga,
Union,
Venango,
Warren, Wayne, Washington, Westmoreland,
York.

Additional classifications are:

French and Indian War,
War of the Revolution.

The latter, sub-divided thus:

First Penna. Battalion, Col. DeHaas,
Second Penna. Battalion, Col. St. Clair,
Third Penna. Battalion, Col. Shee,
Fourth Penna. Battalion, Col. Wayne,
Fifth Penna. Battalion, Col. Magaw,
Sixth Penna. Battalion, Col. Irvine,
Battalion of Riflemen, Col. Thompson,
Penna. Rifle Regiment, Col. Miles,
Musketry Battalion, Col. Atlee,
State Regiment of Foot, Cols. Bull and Stewart,
First, Second, Third, Fourth, Fifth, Sixth, Seventh,
Eighth, Ninth, Tenth, Eleventh, New Eleventh,
Twelfth and Thirteenth Penna. Continental Line,
Additional Regiments under Cols. Patton and Hartley,
Proctor's Artillery,

Capt. Coren's Independent Co. of Artillery,
Von Ottendorff's Corps,
Col. Moylan's Cavalry Regiment,
Armand's First Partisan Legion,
Pennsylvanians in Commander-in-Chief's Guards,
Pennsylvanians in Col. Hazen's Regiment,
Pennsylvanians in Lee's Partisan Corps,
Pennsylvanians in Pulaski's Legion,
Von Heer's Light Dragoons,
The German Regiment,
Flying Camp,
Invalid Regiment,
Bedford County Associators (Revolution),
Berks County Associators (Revolution),
Bucks County Associators (Revolution),
Chester County Associators (Revolution),
Cumberland County Associators (Revolution),

Northampton County Associators (Revolution),
Northumberland County Associators (Revolution),
Philadelphia County Associators (Revolution),
Washington County Associators (Revolution),

Petitions for Military Commissions (Revolutionary War),

Board of War,

Forfeited Estates,
War of 1812-14,

making, in all, one hundred and twenty-four divisions and sub-divisions, a large number, but unavoidable, for the simple reason that whether the papers were found in files or packed in boxes, no attention had been paid to either the date or character of the manuscript. The greater portion had been filed years ago by some person or persons who were unfitted for the work, as in the majority of instances the endorsement bore no relation whatever to the contents of the packages.

One thing that this Division has already developed is the necessity for the re-editing of the Pennsylvania Archives, Second and Third Series, in so far as they bear on the War of the Revolution and that of 1812-14.

Many of the original muster rolls of the former, when compared with the rolls as printed, show great carelessness in clerical work.

For instance, Christian names and sur-names have changed places, and an old soldier filing his application for a pension, pleading age or poverty, sometimes both, having a friend to make an affidavit as to the truth of his statement, would be surprised, if living, to find that the official records of the State show that his friend had served his country instead of himself.

As to the War of 1812-14, there are errors without number, and enough new material has been found to fill at least two volumes of regulation size. The harvest of information of both wars promises to be a rich one.

It is the intention of this Department to work out, if possible, the military history of both Province and Commonwealth, filling out the interval between the several wars, and thus forming a complete military history up to and including Gov. Ritner's term. A further extension will, no doubt, follow in course of time. To accomplish this purpose an invitation is herewith extended to persons throughout the State to either send any original muster rolls, or certified copies of same, now in their possession, to this Department, or else to send word where these rolls are located so that a competent person can be sent to copy them.

It may here be noted that a descendent of Gen. Wm. Reily, who was a Brigade Inspector sixty odd years ago for the division comprising Dauphin, Lebanon, Berks and Schuylkill counties, has placed here the general's militia papers, and they number nearly one thousand.

Again, there are many families whose ancestors were commissioned officers in the War of the Revolution, who possess commissions issued during that war, and of whose service there is no official record. The owners of these are now requested to either send to this Division the original commissions for safe keeping, or photographic copies (on 8x10 inch plates), in order that official records may be made of the same.

This report should not close without reference to the assistants in this Department. Knowing nothing of the character of the work in which they were to engage they have already developed an aptitude and enthusiasm that cannot help but be productive of good results.

The Custodian of the Records wishes to thank the State Librarian not only for the interest he has manifested in this new Department, but for his unfailing courtesy and ready compliance with all suggestions.
